What?
HONEYWELL
Update
for 2017

When?
11:30AM, February 2nd
at Mar-Hy
3850 SE International Way,
Milwaukie OR. 97222

February 2nd @ Mar-Hy HONEYWELL Update for 2017

Honeywell

The **February Product Update meeting** is scheduled to be held at MAR-HY 3850 International Way, Milwaukie, OR at 11:30AM, Thursday, February 2nd.

This meeting qualifies for 1.0 NATE CEU credits

This month's meeting topic: Honeywell's T Series thermostat portfolio is designed to simplify your product line while supporting customers with more features geared for today's advanced technologies and connected home capabilities.

It's a portfolio of non-connected and Wi-Fi connected thermostats that simplify everything from product selection and installation to customer service and support. With an interface you know, features you trust, and the Honeywell quality you depend on in a sleek new aesthetic, the T Series helps you solve challenges and serve customers with unprecedented ease.

HONEYWELL
T Series
Thermostat
Line

Honeywell has also developed a standardized UWP Mounting System that makes installations of any of the T Series products

fast and simple, and it can be used with any type of wiring. By standardizing the mounting system upgrading from a non-connected to a Wi-Fi connected product is much easier and quicker.

Contractors are hardworking people. They need quality products that will help them build and grow their business, while providing easy installation, state-of-the-art functionality, and the ability to easily move homeowners from a non-connected to a connected device. The Honeywell T Series offers these benefits and more:

- A profitable and differentiated portfolio UWP that creates easy, consistent installation while increasing opportunities for upgrades.
- The optional Connected PRO Install Service
- A quality, dependable HVAC control at a great entry price point for homes
- Reliable, intuitive, and easy to sell portfolio of products
- Streamlined product line that transitions from over 20 FocusPRO® and Pro thermostats to eight T Series thermostats
- The reliability and dependability you expect from Honeywell

With the T Series portfolio of non-connected and Wi-Fi connected thermostats, Honeywell provides a scalable platform and consistent design, making it easy to move homeowners from a non-connected to connected device.

Starting with non-connected T Series thermostats, Honeywell delivers products to fit any home.

ORACCA distributes NEWS & VIEWS on a monthly basis to members and selected non-members, so that all those in the HVAC/R industry can keep informed of issues regarding our trade, and Chapter activities. We hope the non-members will see this newsletter as an example of the quality services that ORACCA provides. Contributions or suggestions can be faxed to Association Headquarters at 503-914-1999 or emailed to dick@oracca.org
