When you want to know something, or everything, about the Honeywell line, our presenter, Ed Impala, is the man to whom to talk. Join us for his informative presentation. Ed will be covering the retirement of the Focus Pro 4000 series, the new T4 series and an IAQ high level overview.

Honeywell's T Series thermostat portfolio is designed to simplify your product line while supporting customers with more features geared for today's advanced technologies and connected home capabilities.

It's a portfolio of non-connected and Wi-Fi connected thermostats that simplify

everything from product selection and installation to customer service and support. With an interface you know, features you trust, and the Honeywell quality you depend

on in a sleek new aesthetic, the T Series helps you solve challenges and serve customers with unprecedented ease.

Ed will also discuss IAQ items such as filtration, Humidification, Purification and Ventilation in addition to a review of Honeywell resources that are invaluable to the contractor.

The TAX Cuts & Jobs Act

Jeff Weiler and Benjamin Parish with UBS Financial Services, will be presenting a ten thousand foot view of the Tax Cuts and Jobs Act, recently passed by Congress. This is the most sweeping tax reform since 1986 and will most certainly have an impact on each and every one of us. This will give most of us reason to think about our financial lives and businesses.

They will summarize many of the key provisions of the Act and be ready to answer the many questions this presentation will raise.

Headquartered in Zurich, Switzerland, UBS is present in all major financial centers worldwide. It has offices in 52 countries, with about 34% of its employees working in the Americas, 34% in Switzerland, 18% in the rest of Europe, the Middle East and Africa and 14% in Asia Pacific. UBS Group AG employs around 61,000 people around the world.
