ORACCA and AIREFCO offer a Technician Training Day, Thursday, March 7, 2019, at the Airefco Vancouver Facility, 3812 NE 112th Avenue, Vancouver, WA 98682. This session runs from 7:30AM to 4:00PM, with continental breakfast and lunch provided. Have your dispatcher plan your technician’s day starting with training at Airefco Vancouver.

WHAT IT IS: NATE CEU Class & Test

This is a class that offers current NATE certification holders eight (8) CEU’s toward their required 16 hours for recertification. Also, The morning session will include two hours each of NATE Gas Heat and Heat Pump training. Then in the afternoon, we are offering the NATE test for those that wish to take it. Those not testing will have an afternoon training class to complete the full eight CEU hours.

COST: $100.00 per Company. Send as many participants as you want for one low price. Those companies registering for the NATE test, the $100.00 is included in the test fee.

WHEN and WHERE: March 7, 2019, 7:30am - 4:00pm
AIREFCO, Vancouver facility, 3812 NE 112th Ave, Vancouver, WA 98682

The class will start at 7:30am, end at 4:00pm and includes continental breakfast and lunch for the participants. It will be held at the AIREFCO, Vancouver facility, 3812 NE 112th Ave, Vancouver, WA 98682

Our presenter, Paul Weiss, Director of Service, Portland

Paul began his HVAC Career in 1972 in Philadelphia with Delaware Valley-York as an apprentice building large chillers. He serviced large commercial equipment in the tri-state area and worked for a large distributor in their Engineered Machinery division as tech support.

He moved to Phoenix in 1976 as a Tech Rep for the Southwest Region. In 1991, he moved to Portland, Oregon as Technical Support for the Pacific NW and came to work for Airefco in 1997 as Tech Support for Carrier/Bryant equipment.

Join us for a full day of education, lunch and get NATE CEU’s. Space is limited so register early to ensure a seat.

Remember this class is worth 8 CEU hours for NATE. Does have the ability to take the test and costs $100.00 per company. Send as many people as you want. $100.00 fee included in test registrations.
NATE Continuing Education Requirements!

There are always a lot of questions about NATE certification. For any of your technicians who have a NATE certification, this is not a one-time deal.

NATE requires that each person participate in ongoing training to maintain their certification. NATE requires 16 CEU hours every two years, in order to keep the certification active.

The March 7th session at Airefco, Vancouver, will give attendees 8 NATE CEU hours of credit toward their requirements.

There are two ways to recertify. The first is the least expensive method and is the subject of our May 3rd training day:

1. **Complete 16 continuing education hours (CEU) in your specialty and apply for recertification before your certification lapses.**

Submit an application for recertification and any copies of certificates from courses that are not on your record, this includes non-recognized courses. You can check your record via your login at www.myNATE.org.

To receive credit for non-recognized courses, NATE requires you to provide a Certificate of Attendance from the training provider, including your name, class hours, contact information and course description with your application. NATE has created a NATE Continuing Education Hours Attendance Form for the training provider to complete and sign for you if a standard Certificate of Attendance is not provided.

2. **Or the more expensive route, retake your specialty exam before your certification lapses.**

As you did before, contact a testing organization to schedule your testing. By taking your NATE Certification Specialty Test you will be recertified for another full certification period. As long as your certification has not expired you do not have to retake the core exam.
EXECUTIVE ORDER NO. 17-20

ACCELERATING EFFICIENCY IN OREGON'S BUILT ENVIRONMENT TO REDUCE GREENHOUSE GAS EMISSIONS AND ADDRESS CLIMATE CHANGE

WHEREAS, climate change presents a significant threat to our livelihoods, economic security, environment, health, and well-being.

WHEREAS, there has been an increase in extreme weather events, including more frequent and intense heat waves and wildfires. According to the Oregon Climate Change Research Institute and other regional studies, the best available science indicates Oregon is at risk of serious impacts to its natural resources due to climate change.

• Water resources are being affected by decreased winter snowpack, changes to seasonal runoff patterns, decreased precipitation in Eastern Oregon, and increased intensity and occurrence of flooding.
• Agricultural resources are being affected by increases in temperatures.
• Ocean acidification is increasing and there are changes in ocean currents.
• Significant parts of the Oregon coastal region, stretching 363 miles, will be impacted by an expected rise in sea level up to 1 to 4 feet by 2100, incurring billions of dollars of damages and losses to roadways and structures.
• Climate change impacts threaten the State’s agricultural, fishing, timber, recreation, and tourism industries, thereby threatening the livelihood of the State’s residents and an important source of Gross State Product for the state.

WHEREAS, energy efficiency leads to significant greenhouse gas reductions that are essential to meeting our state greenhouse gas reduction goals and addressing climate change.

WHEREAS, Oregon is committed to meeting the international Paris Agreement targets to reduce greenhouse gas emissions by 26 to 28 percent below 2005 levels by 2025.

EXECUTIVE ORDER NO. 17-20

PAGE 6

F. Improved State Standards for Appliances, ODOE is directed to work with appliance industry stakeholders to identify categories of appliances for improved efficiency standards, while considering appliance standards of other states, potential efficiency gains, potential costs, and supply chains for the regional market for appliances. ODOE is directed to provide the Governor with a report of its analysis and identify categories of appliances for improved efficiency by November 1, 2018.
Planning Ahead ....

MEETING DATES

January 17 - Codes Update @NW Natural, Sherwood - NATE CEU (1.0), CCB CE (1.0)
February 7 - Utility Update @ PGE Wilsonville - NATE CEU (1.0), CCB CE (1.0)
March 7 - All Day Tech Training @ Airefco, Vancouver, WA - NATE CEU (8.0), CCB CE (1.0)
March 22nd - Brazing Test, 8:00AM PCC, Swan Island 2019
April 18 - Codes Update, Mfg. Reps Presentation @ NW Natural, Sherwood - NATE CEU (1.0), CCB CE (1.0)
May - VRV Ductless Systems @ MarHy, - NATE CEU (1.0) CCB CE (1.0)
June 14 - Brazing Test, 8:00AM PCC, Swan Island 2019
June 15 - Shoot Out - Canby Rod & Gun Club
June 20 - Codes Update@NW Natural, Sherwood - NATE CEU (1.0) & CCB CE 2.0
July 15 - Golf Tournament - Oregon City Golf Course
August - No Meeting
Sept. - ECM Motor Presentation Johnstone Supply @ Johnstone Corp - NATE CEU (1.0),
October 17 - Minor Label Review, Codes Update@NW Natural, Sherwood - NATE CEU (1.0) & CCB CE 2.0
October 18 - Brazing Test, 8:00AM PCC, Swan Island 2019
Nov. 7 - H/R Recruiting BDR @ NW Coll. of Constr. - NATE CEU (1.0), CCB CE (1.0)
Dec. 5 - Xmas Party @ Lennox
Dec. 13 - Brazing Test, 8:00AM PCC, Swan Island 2019
